# **INTRODUCTION**

This annual report of Crime in Wyoming presents data on reported crime from January through December, 2001. Data on reported domestic violence incidents information for January through December, 2001 is also included.

The data presented in this report was compiled from Uniform Crime Reporting (UCR) records submitted by contributing law enforcement agencies. These records are designed to collect pertinent standardized data at the city, county and state levels, and were prepared in compliance with the National Uniform Crime Reporting Program standards and definitions.

Agencies prepare UCR forms containing offense, clearance, arrest and supplemental information, and submit monthly reports to the State UCR Program, Criminal Justice Information Section, Division of Criminal Investigation, Office of the Attorney General<sup>1</sup>. After processing, the reports are sent to the FBI for use in compilation and analysis of national crime statistics.

Sixty-six individual law enforcement agencies report UCR data, which serve jurisdictions representing 98.6 percent of the State's population<sup>2</sup>. Twenty-three sheriffs' offices and forty-three police departments contributed UCR reports in 2001.

The UCR Program collects data on offenses which are categorized as Part I and Part II crimes<sup>3</sup>. The Part I crimes include the "Crime Index" offenses of murder, forcible rape, robbery, aggravated assault, burglary, larceny-theft, and motor vehicle theft. Arson was added as a Part I offense in 1979, (referred to as the "Modified Crime Index"). For Part I offenses, information regarding the incident, certain supplemental crime information, and arrest data is collected, however, the UCR Program collects only *arrest* data for Part II offenses.

The Domestic Violence Reporting Program information was compiled from data submitted by all Wyoming law enforcement agencies within whose jurisdiction incidents of domestic violence occurred<sup>4</sup>.

The *Hate Crime Reporting Summary* has been compiled in response to the *Hate Crime Statistics Act of 1990*. Its data was received from those agencies submitting reports for each particular quarter of 2001. It can be assumed that UCR reporting agencies not listed had zero cases to report.

# OFFENSES IN UNIFORM CRIME REPORTING

Offenses in Uniform Crime Reporting are divided into two groupings designated as Part I and Part II crimes. Information on the number of Part I offenses known to law enforcement, the number of offenses cleared by arrest or exceptional means, and the number of persons arrested are reported. Only arrest data is reported for Part II offenses.

## THE PART I OFFENSES ARE AS FOLLOWS:

1. CRIMINAL HOMICIDE - (a) *Murder and Non-Negligent Manslaughter*: The willful (non-negligent) killing of one human being by another. Deaths caused by negligence, attempts to kill, assaults to kill, suicides, accidental deaths, and justifiable homicides are excluded. Justifiable homicides are limited to: (1) The killing of a felon by a law enforcement officer in the line of duty; and (2) The killing of a felon, by a private citizen, while in the act of committing a felony, (b) *Manslaughter by Negligence*: The killing of another person through gross negligence. Excludes traffic fatalities. While manslaughter by negligence is a Part I crime, it is not included in the Crime Index.
2. FORCIBLE RAPE - The carnal knowledge of a female forcibly and against her will. Included are rapes by force and attempts or assaults to rape. Statutory rape offenses (no force used/victim under age of consent) are excluded.

Examples are thefts of bicycles or automobile accessories, shoplifting, pocket-picking, or the stealing of any property or article which is not taken by force and violence or by fraud. Attempted larcenies are included. Embezzlement, "con" games, forgery, worthless checks, etc., are excluded.
7. MOTOR VEHICLE THEFT - The theft or attempted theft of a motor vehicle. A motor vehicle is self-propelled and runs on the surface and not on rails, Specifically excluded from this category are motorboats, construction equipment, airplanes, and farming equipment.

# **THE CRIME INDEX**

The offenses which comprise the Crime Index are all serious, either by their nature or by the frequency with which they occur, and each presents a common law enforcement problem. Crimes within the Index are further categorized as Violent Crimes (murder, forcible rape, robbery and aggravated assault) or as Property Crimes (burglary, larceny-theft, and motor vehicle theft). By congressional mandate, arson was added as a reportable offense in 1979. Its data collection is separate and except where noted as the "Modified Crime Index," it is presented independently of other offense data in this report.

## **VIOLENT CRIMES**

Violent crimes involve the element of personal confrontation between the perpetrator and the victim and entail the use or threat of force or violence. By their very nature, violent crimes are considered more serious than property crimes.

## **PROPERTY CRIMES**

Property crimes entail the attempt or actual taking of someone's property by another. Although property crimes are less serious in nature than their violent crime counterparts of the Index, they represent, by far, the bulk of the total Crime Index.

## **CLEARANCES**

For Uniform Crime Reporting purposes, an Index offense is cleared when: 1) a law enforcement agency has identified the offender, 2) there is sufficient evidence to charge the offender, and 3) the offender is actually taken into custody. The arrest of one person can clear several crimes or several persons may be arrested in the process of clearing one offense. Clearances are also recorded in exceptional circumstances when some element beyond the control of the law enforcement agency precludes formal charges being brought against the offender. For example: death of offender; offender incarcerated in another jurisdiction, etc.

## CRIME RATES

Crime rates represent the number of crimes in relation to the population of a given jurisdiction. All crime rates presented in this report are per 10,000 population unless otherwise specified. By UCR definition, the victims of forcible rape are always female, therefore the rape rates are per 10,000 females. In addition, the estimated "covered population" represents the Wyoming population that is covered by law enforcement agencies who contributed UCR data, and is the population base used in calculating crime rates.

Crime rates are calculated by dividing the number of offenses by the population and multiplying the result by 10,000. The population base figures used for this report was compiled from two sources: U.S. Department of Commerce, Bureau of the Census, and the State Department of Administration and Information, Division of Economic Analysis. The initial estimated 2000 Census population count was used for calculation of the 2001 information presented in this report, (Bureau of the Census enumeration and estimates determined by the Wyoming Division of Economic Analysis (formerly Division of Research and Statistics)).

2000	487,036	16200	332.6

\* The Percent Change figures presented in this report were calculated by comparing the number of offenses reported by each contributing agency while controlling for missing reports. If an agency failed to report crime data for one or more months during 2001, the same months were excluded from the comparison with last year's years reports. Given the comparatively low volume of several of the Index offenses, caution must be used when interpreting Percent Change figures since a slight shift in the volume of offenses may result in a large percent change.

Arson property value is an estimate of damage.

# AGGRAVATED ASSAULT

Aggravated assault is defined as an unlawful attack, or attempt to attack, by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault is usually accompanied by the use of a weapon or by means likely to produce death or great bodily harm. In other words, all assaults by one person upon another with the intent to kill, maim, or inflict severe bodily injury with the use of any dangerous weapon are classified under one of the aggravated assault categories. It is not necessary that injury result from an aggravated assault when a gun, knife, or other weapon is used which could and probably would result in serious personal injury if the crime were successfully completed.

# BURGLARY

The Uniform Crime Reporting Program defines burglary as the unlawful entry of a structure to commit a felony or a theft. The use of force to gain entry is not required to classify an offense as burglary. Burglaries in the UCR Program are categorized into three subclassifications: forcible entry, unlawful entry where no force is used and attempted forcible entry. One offense is counted for each distinct operation.

# STOLEN & RECOVERED PROPERTY

Supplementary reports relating to the value of property stolen and recovered are also provided by the participation law enforcement agencies. This supplementary report requires a value to be established for property stolen and recovered for each Crime Index offense.

When property is recovered in a different condition than what it was at the time of the theft, that value is used even though it's a lesser amount than when it was stolen. The "*value of property stolen*" refers only to property stolen incidental to crimes which occurred in a particular jurisdiction. Likewise, the "*value of property recovered*" includes only property originally stolen from that jurisdiction. However, it does not matter *who* recovers the property or *where* it was recovered.

# INDEX OFFENSES BY CONTRIBUTOR

Crime Index offenses, excluding arson, by county and agency for January through December 2001, are presented in the table of 2001 Index Offenses by Contributor, totals and percent change figures are provided for agency comparison. Given the comparatively low volume of several of the Index offenses, caution must be used when interpreting "*Percent Change*" figures since a slight shift in the volume of offenses may result in a large percent change.

The 2001 estimated covered population figures are presented to provide the base used to calculate the crime rate per 10,000 population. For agencies desiring to calculate rates using their own population figures, the formula is as follows:

$$\text{Rate} = x/y \times 10,000 \quad \text{Where: } x = \text{number of offenses} \\ y = \text{the population base}$$

To alter the "*rate*" figure, substitute another number for 10,000 (1,000, 500, 250). For example, if a community of 1,250 residents experience 49 offenses during the year and would like to know the crime rate per 1,000 residents, the formula would be:

$$\text{Rate} = 49/1,250 \times 1,000$$

Dividing 49 by 1,250 then multiplying that number by 1,000 we get 39.2 offenses per 1,000 residents.

\* The *Percent Change* figures presented in this report were calculated by comparing the number of offenses reported by each contributing agency while controlling for missing reports. If an agency failed to report crime data for any months during 2001, the same months were excluded from the comparison with last year's reports. Given the comparatively low volume of several of the Index offenses, caution must be used when interpreting Percent Change figures since a slight shift in the volume of offenses may result in a large percent change.

University & College population and rate per 10,000 is included with the P.D. figures.

# CLEARANCES OF INDEX CRIMES

Index crimes reported can be cleared either by arrest or exceptional means. However, no distinction between cleared by “arrest” and “exceptional means” is made on the report.

An index crime is “cleared by arrest” or solved for UCR purposes when at least one person is:

1. Arrested,
2. charged with the commission of the offense: and
3. turned over to the court for prosecution (whether following arrest, court summons or police citation).

In certain situations, law enforcement is not able to follow the three outlined steps under “cleared by arrest” to clear the offenses known to them. Many times all leads have been exhausted and everything possible has been done in order to clear a case. If the following questions can all be answered “yes” the offense can then be cleared “exceptionally” for UCR purposes.

1. Has the investigation definitely established the identity of the offender?
2. Is there enough information to support the arrest, charge, and turning over to the court for prosecution?
3. Is the exact location of the offender known so that the subject could be taken into custody now?
4. Is there some reason outside law enforcement control that precludes arresting, charging and prosecuting the offender?

UCR recognizes the departmental policy in various law enforcement agencies that allow the discontinuance of investigation and administrative closing of cases in which all investigation has been completed. But the administrative closing of a case or the “clearing” of it by departmental policy does not permit exceptionally clearing an offense for UCR purposes unless all four questions mentioned above can be answered “yes”. Clearances in accordance with UCR procedures should have no effect on whether an agency has internal policies as to “closing” a case or discontinuing active investigation.

The following table list index crimes cleared either by arrest or exceptional means as reported to the Division of Criminal Investigation through the UCR program

## PERSONS ARRESTED 2001

Procedures employed in the UCR Program require that an arrest be counted on each separate occasion an individual is taken into custody, notified or cited for committing an offense in an agency's jurisdiction. Although several charges may be placed against a person at the time of arrest, only one arrest (usually the most serious) is counted each separate time he/she is taken into custody. Juvenile arrests are in accordance with the age definition of a juvenile for the National Uniform Crime Reporting Program, which is a person under 18 years of age.

Differences in arrest practices, policies, and enforcement emphasis among agencies influence the volume of arrests for various offenses, particularly those against public order, e.g. drunkenness, simple assault, vagrancy, disorderly conduct and related violations. However, arrest for serious crimes, e.g., robbery or burglary, are more likely to be consistent and uniform throughout all jurisdictions.

# LAW ENFORCEMENT PERSONNEL

Because of varying demographic and other jurisdictional characteristics, the requirements for law enforcement service differ from one locale to another. For example, the needs of a community having a highly seasonal population may be extremely different from one whose population is relatively stable. In view of differing service requirements and responsibilities, caution must be used when attempting any comparison of law enforcement employee rates. The rates presented in the following tables should be viewed as guides or indicators, not as recommended or desirable police strengths. Adequate manpower for a specific locale can only be determined after thorough study and analysis of the various conditions which contribute to the requirements for law enforcement service in that jurisdiction.

## DOMESTIC VIOLENCE REPORT

The following domestic violence information was provided by Wyoming law enforcement agencies and compiled by the Criminal Records Section, Division of Criminal Investigation, Office of the Attorney General, in compliance with W.S.S. 7-20-107(a)(b) and W.S.S. 6-4-404.

The Domestic Violence Reporting Program, which began January 1, 1988, reflects domestic violence information as submitted by Wyoming law enforcement agencies on a monthly basis. The following tables provide summary information concerning the number of incidents by county, day of week, time of day, type of violence and disposition.

Factors involved which contribute to the amount of domestic violence incidents reported for any one month include: repeated incidents throughout the month involving the same individuals; one offender/multiple victims; and, mutual confrontation where the involved subjects are both victim and offender.

When more than one type of violence occurs, or multiple dispositions are reported for a single incident, only the most serious and/or consequential action is counted for reporting purposes of this program.

# HATE CRIME REPORTING SUMMARY

In response to a growing concern about hate crimes, the President, on April 23, 1990, signed into law the "Hate Crime Statistics Act of 1990" (hereafter "Act"). The Act requires the Attorney General to establish guidelines and collect, as part of the UCR Program, data "about crimes that manifest evidence of prejudice based on race, religion, sexual orientation, or ethnicity, including where appropriate the crimes of murder, non-negligent manslaughter, forcible rape, aggravated assault, simple assault, intimidation, arson, and destruction, damage or vandalism of property." The Attorney General is required to begin acquiring hate crime data in calendar year 1990. The Attorney General has delegated his responsibilities under the Act to the Director of the FBI. The FBI's Uniform Crime Reports (UCR) Section has been assigned the task of developing the procedures for, and managing implementation of, the collection of hate crime data.

The following represents a summary of the Hate Crime Incident Reports submitted by UCR contributors for the year 2001.

The agency is divided into five (5) sections consisting of the South Investigations Section; North Investigations Section; Investigation Support Team; State Crime Laboratory; and the Criminal Justice Information Section.

The Wyoming Division of Criminal Investigation has jurisdiction to conduct criminal investigations per W.S. 9-1-618(a) when requested to by a state, county, or municipal law enforcement agency, or by the county or district attorney of jurisdiction.

The Investigative Support Team is located at the agency headquarters in Cheyenne, Wyoming. The Investigative Support Team assists the State Regional Enforcement Teams or assumes responsibility for the investigation, based upon case load, priorities and expertise in areas such as fraud, homicide, conspiracy, computer and high tech crimes.

The agency, along with the Cheyenne office, has five field offices located in Casper, Gillette, Green River, Jackson, and Riverton as well as five satellite offices located in Evanston, Laramie, Powell, Rawlins, and Sheridan.

The following tables represent DCI's involvement in Wyoming law enforcement. These numbers are representative of DCI activities and are not necessarily reflected in UCR reports from other State jurisdictions.
